What is your first thought when you hear the word cancer? It's probably not a good one. Cancer changes us, some of us for good others for bad. Ovarian cancer changed me. I became stronger, determined and empowered. From being a listener I became a writer. This book is about my journey through Chemotherapy. As I told my story to family and friends, I discovered that besides being concerned, they were starving for information. This topic and what a person is experiencing along the way was new to most of them. It changed the direction of my life and helped others to look at cancer from a new perspective. You'll laugh with me, maybe you'll cry, but hopefully you'll be come a wiser person.
